

Jim Mersereau, E. I. is a graduate research assistant with the Intermodal Freight Transportation Institute (IFTI) at the University of Memphis. He is currently enrolled in the Masters program of the University of Memphis' Civil Engineering Department, and is involved in research regarding public involvement in transportation projects and long term planning by metropolitan planning organizations. Prior to beginning the program, Jim received Bachelors of Arts degrees in History and Political Science from Tulane University in 2007 and a Bachelors of Science in Civil Engineering degree from the University of Memphis in 2013, graduating cum laude. From 2007 to 2010, he worked as an environmental consultant in Houston, Texas, specializing in stormwater management.

As a student at the University of Memphis, Jim has served as president of the American Society of Civil Engineers student chapter, secretary of the Institute of Transportation Engineers student chapter, captain of the American Society of Civil Engineers/American Institute of Steel Construction Steel Bridge Team, and participated in the Earthquake Engineering Research Institute's Seismic Design Competition. Additionally, Jim served as the Project Manager for the University's Institute of Transportation Engineers Data Collection Fund Grant 2012-2013.

Jim is a native of Bethesda, Maryland where he grew up sailing competitively, earning a position on Tulane University's team. Having moved inland, he has picked up running and has competed in a variety of long distance races across the country. His wife, Jenna, teaches 5th grade reading and writing in Memphis.
