

Student Highlights

Fall 2013-BMES/SFB

Joint Graduate Program in Biomedical Engineering

University of Memphis
Herff College of Engineering

University of Tennessee
Health Science Center

It was really cold on the day of our kickball social, but grad students, undergrads and our post-doc came for BBQ, frisbee and kickball!

BMES/SFB teamed up with SPS to host a Lasertag event and pizza party to enhance collaboration between science majors! This was funded by a STEM mini-grant!

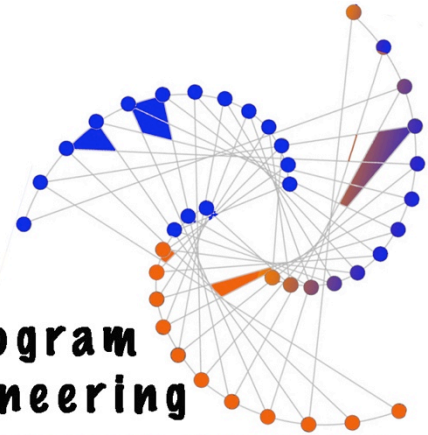

We had a great turnout! (Lasertag outing had 38 people total!) We recruited a few new members using this event as well!
