

THE UNIVERSITY OF MEMPHIS LAW REVIEW SYMPOSIUM

THE AMERICAN ADDICTION: PATHWAYS TO ADDRESS THE OPIOID CRISIS

FRIDAY, MARCH 16, 2018

AGENDA

Volume 48 *The University of Memphis Law Review* welcomes you to its annual symposium that will analyze America's opioid overdose epidemic through a "pathways" approach, recognizing that the epidemic derives from separate, dueling sources—legal and illegal. We are privileged to host such a dynamic and diverse roster of policymakers, legal scholars, and interdisciplinary practitioners who will discuss opportunities to innovate and intervene where opioids intersect with the law. No matter the source, both pathways converge on the community and the individual, costing the ultimate price for too many—life.

Time	Event	Location
