Dear UofM Students:

In our continuing effort to support students addressing the unique challenges presented by COVID-19, the CARES Act provided funds to institutions of higher education to give direct financial assistance to eligible students. The University of Memphis recently received funding under this Act and will begin disbursing to eligible students once related protocols, in accordance with the criteria articulated by the federal government, are finalized. The U.S. Department of Education has provided guidance on how these funds should be allocated with the goal of assisting students with need defined by FAFSA documentation already on file. The University expects to begin disbursing funds this week.

For additional information on the processing of your eligible CARES Act emergency funds, please contact the University and Student Business Services at usbs@memphis.edu.

For the most up-to-date information, please visit the University's FAQs page at memphis.edu/health/coronavirus/university-faqs.php.

Regards,

M. David Rudd, Ph.D., ABPP

President

Distinguished University Professor of Psychology
