### **Second Language Reading**

Reading is a key language skill. Language learners need to learn to read in their L2, but at the same time, reading in the L2 helps them learn more language. In this course, we explore how to learn to read in an L2, how L2 reading promotes language learning, and how language teachers can promote L2 reading skills in their classrooms. We'll consider the following topics:

- How we develop L2 reading proficiency
- Learning to read and reading to learn perspectives
- Context and culture in L2 reading
- Learning and teaching strategies for L2 reading
- L2 reading and incidental language learning
- Reading across the curriculum
