UNIVERSITY HIGH CORE COMPETENCIES

At University High School, a competency is defined as an understanding or skill in which all students achieve a required level of proficiency before graduating. Competencies will be a required component of graduation, span across content areas and learning environments, and connect directly to the mission, vision and core tenets of the school. Students will have opportunities across academic and non-academic experiences to show evidence of these competencies.

Entrepreneurial Mindset

Awareness of Self & Others

Equity-Mindedness & Inclusivity

Curiosity

Collaboration

Creativity

Self-Efficacy

Judiciousness

Flexibility

MISSION STATEMENT

University High School prepares a diverse body of students with the knowledge, skills and mindsets needed to thrive in the 21st century and global community through innovative and inclusive practices, transformational partnerships and equitable access to opportunities that lead to success in college and life.

University High School prepares our communities' next generation of leaders, entrepreneurs and change agents.

University High School graduates will receive college prep on the UofM campus and earn up to 45 hours of collegiate credit.
