

School of Public Health

Public Health Virtual Summer Institute 2021 “Data Analytics and Epidemiology”

All workshops offered ONLINE!

Take short, interactive workshops to enhance your skills in data analysis and infectious disease epidemiology. Sessions are taught online via Zoom in real time by public health faculty experts.

1-Day: Data Analysis and Presentation using Excel

August 9 (Mon.) 9:00 am- 4:00 pm Central Time; Chunrong Jia, PhD

This interactive session will provide hands-on experience analyzing and presenting data using Excel. Fee: \$150.

2-Day: “R” for Beginners

August 10-11 (Tue.& Wed.) 9:00 am- 4:00 pm Central Time; Meredith Ray, PhD

This introduction to R provides hands-on experience creating coding for manipulating, analyzing, and presenting data using R. Fee: \$300

1-Day: Epidemiology of Emerging Infectious Disease

August 12 (Thur.) 9:00 am- 4:00 pm Central Time; Xinhua Yu, MD, PhD, MS

This advanced workshop focuses on disease agents that cause disease, modes of transmission, and methods of tracing/controlling the causes of communicable diseases within a community. Fee: \$150.
